### **DETAILED ACTION**

1. Claims 1-20 are allowed

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art, either singly or in combinations, fails to anticipate or render obvious an apparatus for matching an impedance of an RF generator to an impedance of an RF load, for use in manufacturing semiconductor devices by using a plasma, comprising: a variable inductor coupled to a variable capacitor and an invariable capacitor, the variable inductor having two inductors coupled electrically to each other and disposed adjacent to each other, at least one of the two inductors being movable so that a magnetic flux of the at least one inductor interferes with a magnetic flux of an other one of the two inductors, to thereby control an inductance of the variable inductor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle Crowell whose telephone number is (571) 272-1432.

The examiner can normally be reached on M-F (9:00 - 5:30).

Art Unit: 1763
